One Man's Trash Is Another Man's Treasure

"ONES TRASH IS ANOTHER'S TREASURE" #SUSTAINABILITY, #TRASHTOTREASURE,
#CONTEMPORARYTFA

PART ONE: Using the examples from our course, you are required to research and identify ONE TRASH item that is being sustainably converted to ANOTHER TREASURE from within YOUR major(Textiles/ Fashion/Accessories), and write a 1,000 word essay on it, including details of the process, the source of inspiration and the commercial success of the reborn product(s). This process must be well researched and supported with documentary evidence where necessary. Please reference your work!!!

Vegea Textile

01 Vegea is a vegetable leather

02 It doesn't need any water in order to manufacture it

03 Wine leather doesn't need a complicated and toxic tanning procedure

04 Grapes skins and seeds is turned into a substance that resembles leather

05 2.5 kg of grape marc is attained from 10 liters of wine and turned into 1 square meter of the vegan wine leather.

06 No heavy metals, toxic chemicals and harmful substances for humans and the environment are included.

WINE LEATHER

Eco-Friendly Vegan Leather From Wine
Industry Leftovers

One Man's Trash Is Another Man's Treasure

"ONES TRASH IS ANOTHER'S TREASURE" -#SUSTAINABILITY, #TRASHTOTREASURE,
#CONTEMPORARYTFA

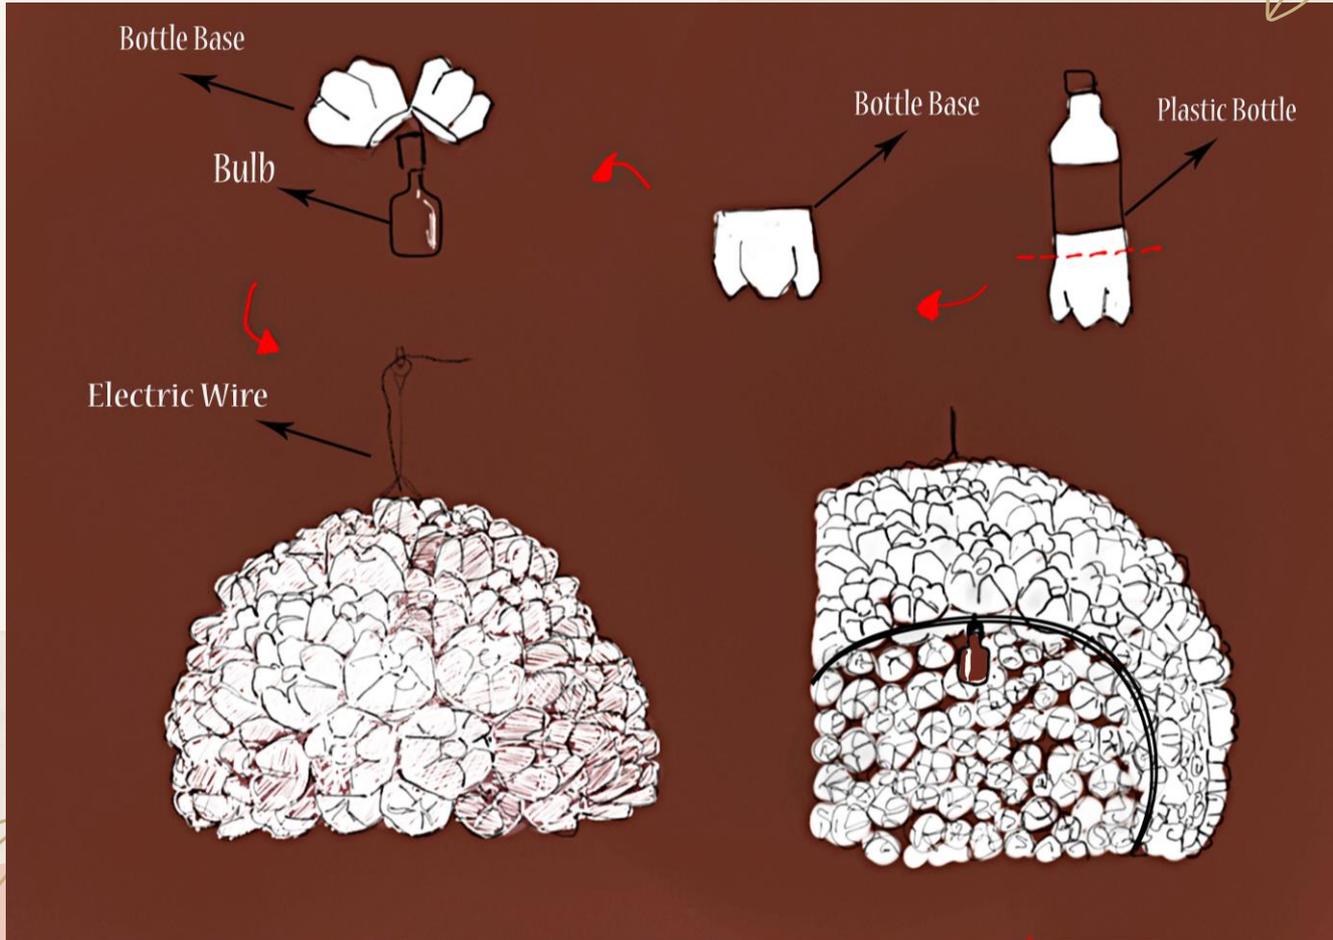

PART TWO: Design a Treasure of Your Own using Trash item(s) of Your Choice. You may use any number of components in any way you wish, but with the view that it is a contemporary product that will be sold. Please make this design on A4 SIZE CANVAS (digital or manual is acceptable). It must be labelled and fully rendered so as to be clear in its vision and convey its aesthetic. Marks will be awarded specifically for execution and presentation of this component. Your Designs will be shared on Social Media.
